Instruction Manual

Congratulations on the purchase of your Superactive LED Fibre Optic Light Source!

The Superactive LED Fibre Optic Light Source has been designed specifically for people with special needs and should, if used in accordance with these guidelines, offer years of switching learning fun !

The Superactive LED Fibre Optic Light Source offers endless opportunities to develop numerous skills including colour recognition, cause and effect, and many many more. It is the brightest LED Light Source currently available (at time of print) and produces multiple shades of colour when used in calming mode. The Superactive LED Fibre Optic Light Source comes with its own 8 way controller which allows control of the tube wirelessly from a distance of up to 30m.

Please ensure you read this Instruction Manual in full before operating the unit.

EXPERIA GENERAL WARNINGS AND CAUTIONS

PLEASE READ THE INSTRUCTIONS WITHIN THIS MANUAL CAREFULLY BEFORE INSTALLING OR OPERATING THIS PRODUCT. Heed all warnings on the product and within this manual. If upon receipt of this product, the user suspects that the product is defective, and/or requires service or repair due to malfunction or damage to the product, please contact the manufacturer immediately. Please be aware that improper installation and/or use or misuse of this product may result in injury, death, or adverse reactions to its user. This product is intended to be installed and/or use by a trained professional. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture, and intended uses of the product.

The unit has been designed for use by people with special needs however this does NOT mean it is unbreakable.

- Latest LED Technology
- No Lamp Change – LED
- Low Voltage Transformer supplied
- 8 Button Wireless Controller
- Low Maintenance
- Durable
- Easy to use
- 3 Years Manufacturers Guarantee (Return to base)

Instruction Manual

Pack Contents

- 1 x Superactive LED Fibre Optic Light Source
- 1 x Transformer
- 1 x 8 button Controller
- 1 x Qi Charging Pad
- 1 x USB Power Supply
- 1 x USB Cable
- 1 x Instruction Manual

Getting Started

1. Always fully charge your wireless controller before first use...
2. Connect the USB cable to the Qi Charging Pad.
3. Connect the USB cable to the USB Power Supply, and connect to a suitable mains outlet.
4. Switch on and there will be an LED illuminate on the Qi Charging Pad.
5. Place the Qi Charging Pad on a flat surface and place the 9 way Controller on top of the charging pad, so the red switch is directly over the pad.
6. When positioned correctly the charging LED will illuminate on top of the controller.
7. Charging will take about 6 hours and the LED on the controller will go out when charging is complete.
8. Choose which fibre optic product you wish to use with the Superactive LED Fibre Optic Light Source. This could be fibre optic sideglow, wide bore, fibre optic carpet, etc.
9. Connect the fibre optic 'common end' into the silver common end socket on the front of the light source, and secure with the screw on the socket.
10. Connect the round XLR connector from the low voltage controller to the socket in the back of the light source.
11. Connect the standard mains plug to a mains outlet.
12. The unit will illuminate and scroll through the standard colours.
13. Now it's ready for use.
14. Simply press any coloured switch on the 8 way controller and the Superactive LED Fibre Optic Light Source will respond.
15. If switch activity stops for a while, the bubble tube will return to calming mode and automatically scroll the colours.

Instruction Manual

Cleaning and Maintenance

The unit should be cleaned with a damp soft cloth. A non-abrasive cleaning agent may be used for stubborn stains. Ensure no liquid enters the unit.

Troubleshooting the Superactive LED Fibre Optic Light Source

Q. The unit doesn't work.

A1. Is it switched on? If so, see A2
