Congratulations on the purchase of your Interactive Sound Wall!

The Interactive Sound Wall has been designed specifically for people with special needs and should, if used in accordance with these guidelines offer years of switching learning and fun!

The Interactive Sound Wall offers opportunities to develop numerous skills including fine & gross motor skills, coordination, and many more.

The Interactive Sound Wall is controlled by simply touching any one of 8 brightly coloured hands located on the front of the unit. It utilises the latest touch sensitive pad technology which are perfect for those with limited movement.

Please ensure you read and follow these instructions carefully before installing or operating the unit. Please keep this manual for future reference.

Heed all warnings on the product and within this manual. If upon receipt of this product, the user suspects that the product is defective, and/or requires service or repair due to malfunction or damage to the product, please contact the manufacturer immediately. Please be aware that improper installation and/or use or misuse of this product may result in injury, death, or adverse reactions to its user. This product is intended to be installed and/or use by a trained professional. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture, and intended uses of the product.

- 10 sets of sound files
- Volume Control
- Safe Low Voltage – (transformer supplied)
- Easy maintenance
- 2 Year Manufacturers Guarantee (Collect and Return)

Pack contents

1 x Interactive Sound Wall
1 x Low Voltage Transformer

Getting Started

This unit must be mounted prior to use, see below. This unit must be installed by a competent person/s.

1. Sit the unit on the floor next to a wall in the location you wish.
2. Remove the mirror brackets on the back of the unit from their transit position and refit so that the brackets stick out of the side of the unit.
3. Securely the unit to the wall using the mirror brackets and fixings appropriate for your type of wall. The unit **MUST** be sat on the floor as the mirror brackets are **NOT** designed to hold the weight of the unit.
4. Mount the supplied transformer and connect the round XLR connector from the Low Voltage transformer to the socket on the side of the unit.

5. Connect the transformer to a mains outlet
6. The Interactive Sound Wall is now ready to use.
7. Simply touch one of the 8 coloured hands and a sound will be heard from the integral speakers.
8. Adjust the volume if required using the knob on the unit.
9. To change the sounds simply press the select button to scroll through sound groups 0 to 9

Please note: Only use the transformer supplied. Use of a different transformer may result in damage to the product and void the warranty. For warranty information please see separate warranty card supplied.

Cleaning and Maintenance

The Interactive Sound Wall should be cleaned with a damp soft cloth. A non abrasive cleaning agent may be used for stubborn stains. **NO LIQUID MUST ENTER THE INTERACTIVE SOUND WALL.**

The Interactive Sound Wall has been designed for use by people with special needs, however this does **NOT** mean it is unbreakable. Every care must be taken to ensure the Interactive Sound Wall is not hit with anything and that the unit is not pushed or pulled.

Troubleshooting

Q. The Interactive Sound Wall doesn't work.

A1. Is it switched on? If so,

A2. Is the volume turned up? If so,

A3. When you touch any of the hands, do you hear a faint clicking sound? If so,

A4. Please contact us.
