Congratulations on the purchase of your Standard LED Fibre Optic Lightsource!

The Standard LED Fibre Optic Lightsource has been designed specifically for people with special needs and should, if used in accordance with these guidelines, offer years of switching learning and fun!

The Standard LED Fibre Optic Lightsource scrolls gradually through hundreds of shades of colour to produce a relaxing, Standard effect.

The Standard LED Fibre Optic Lightsource uses the very latest in LED technology to deliver intensive, bright colours to your fibre optics.

Please ensure you read and follow these instructions carefully before installing or perating the unit.

Head all warnings on the product and within this manual. If upon receipt of this product, the user suspects that the product is defective, and/or requires service or repair due to malfunction or damage to the product, please contact the manufacturer immediately. Please be aware that improper installation and/or use or misuse of this product may result in injury, death or adverse reactions to its user. This product is intended to be installed and/or used by a trained professional. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture, and intended use of this product. The product should be inspected prior to use.

For optimal results, please read and follow instructions carefully
Please keep for future reference

Features

- Stylish Design
- Completely Silent
- Cool Running
- LED Driven so no lamp change
- Hundreds of Shades of Colours
- Low Voltage
- Easy to use
- 2 Year Manufacturers Guarantee (Collect and Return)

Getting Started

1. Connect fibre optic 'termination' to the front of the lightsource and tighten the bolt to hold the termination in position.
2. Connect the black DC power plug from the power supply unit to the DC power socket on the back of the Light Source.
3. At a suitable mains outlet, ensure the switch is off. Connect the Power Supply Unit to mains outlet. Now switch on the mains outlet.
4. The unit will now illuminate and scroll through the 8 colours before going out briefly.
5. Now it's ready to use and will start scrolling through colours automatically.

Please note: Only use the transformer supplied. Use of a different transformer may result in damage to the product and void the warranty. For warranty information please see separate warranty card supplied.

Cleaning and Maintenance

The unit should be cleaned with a damp soft cloth. A non abrasive cleaning agent may be used for stubborn stains. Ensure no liquid enters the unit.

The unit has been designed for use by people with special needs however this does NOT mean it is unbreakable.

Lamp Change

Not required! It uses an LED which lasts for years!

Troubleshooting

Q. The unit doesn't work.

A1. Is it switched on? If so,

A2. Has the unit scrolled through its colours? If no,

A3. Please contact us.
